TITAN PHARMACEUTICALS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

1. Organization and Summary of Significant Accounting Policies

The Company

We are a biopharmaceutical company developing proprietary therapeutics for the treatment of central nervous system disorders, cancer, and other serious and life threatening diseases. We operate in one business segment, the development of biopharmaceutical products.

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements include the accounts of Titan and its subsidiaries after elimination of all significant intercompany accounts and transactions. Certain prior year balances have been reclassified to conform to the current year presentation. These financial statements have been prepared in accordance with generally accepted accounting principles in the United States for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for a complete financial statements presentation. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included. Operating results for the nine-month period ended September 30, 2002 are not necessarily indicative of the results that may be expected for the year ending December 31, 2002.

These unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and footnotes thereto included in the Titan Pharmaceuticals, Inc. annual report on Form 10-K for the year ended December 31, 2001.

Revenue Recognition

Contract revenue for research and development is recorded as earned based on the performance requirements of the contract. Revenue associated with performance milestones, considered "at-risk" until the milestones are completed, is recognized based on the achievement of the milestones as defined in the respective agreements. Government grants, which support our research effort in specific projects, generally provide for reimbursement of approved costs as defined in the grant documents, and revenue is recognized when associated project costs are incurred.

Operating Subsidiaries

We conduct a small portion of our operations through two subsidiaries: Ingenex, Inc. and ProNeura, Inc. At September 30, 2002, we owned 81% of Ingenex (assuming the conversion of all preferred stock to common stock) and 79% of ProNeura.

2. Net Loss Per Share

We calculate net loss per share using the weighted average common shares outstanding for the period. For periods ended September 30, 2002 and 2001, the effect of an additional 6,387,714 and 4,662,448 shares,

respectively, related to our authorized and issued convertible preferred stock and options, were not included in the computation of diluted earnings per share because they are anti-dilutive.

3. Comprehensive Income

Comprehensive income is comprised of net loss and other comprehensive income. The only component of other comprehensive income is unrealized gains and losses from our marketable securities. Comprehensive loss for the three and nine months ended September 30, 2002 were \$7.6 million and \$21.0 million, respectively, and for the three and nine months ended September 30, 2001 were \$3.9 million and \$9.4 million, respectively.

4. Related Parties Transactions

In February 2001, we made a loan to a vice president officer in the principal amount of \$373,000 bearing interest at prime rate.

The loan was due and payable on August 7, 2002. As of November 14, 2002, the remaining principal balance is \$53,000 and it is expected that the remaining balance will be repaid by year end 2002.

5. Spheramine milestone payment from Schering AG

In February 2002, we announced that we received a \$2.0 million milestone payment from Schering, Titan's corporate partner for worldwide development, manufacture and commercialization of Spheramine®, Titan's novel cell therapy for the treatment of Parkinson's disease. The milestone payment followed Schering's decision in the first quarter 2002 to initiate larger, randomized clinical testing of Spheramine for the treatment of patients with late-stage Parkinson's disease following the successful completion of Titan's Phase I/II clinical study of Spheramine. As a result, Titan recognized \$2.0 million in contract revenue in the first quarter.

6

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion contains certain forward-looking statements, within the meaning of the "safe harbor" provisions of the Private Securities Reform Act of 1995, the attainment of which involves various risks and uncertainties. Forward-looking statements may be identified by the use of forward-looking terminology such as "may," "will," "expect," "believe," "estimate," "plan," "anticipate," "continue," or similar terms, variations of those terms or the negative of those terms. Our actual results may differ materially from those described in these forward-looking statements due to, among other factors, the results of ongoing research and development activities and pre-clinical testing, the results of clinical trials and the availability of additional financing through corporate partnering arrangements or otherwise. Additional factors include our ability to protect our patents and proprietary rights, ability to comply with extensive government regulations, and other factors and risks detailed under the caption "Risk Factors" in the Company's 2001 Annual Report on Form 10-K and other filings with the U.S. Securities and Exchange Commission. Stockholders and prospective investors in the Company should carefully consider these risk factors. The Company disclaims any obligation to update these statements for subsequent events.

Spheramine®, CeaVac®, TriAb®, TriGem™, Pivanex®, CCM™, Probuphine™, Apromax™, and Promafen™ are trademarks of Titan Pharmaceuticals, Inc.

Overview

We are a biopharmaceutical company developing proprietary therapeutics for the treatment of central nervous system disorders, cancer, and other serious and life threatening diseases. Our product development programs focus on large pharmaceutical markets with significant unmet medical needs.

We currently have 12 products in development, seven of which are in clinical development, with two products in expanded human trials for safety and efficacy, known as Phase III clinical trials. We have five products in earlier stage trials for dosing, and preliminary safety and efficacy, known as Phase I and Phase II clinical trials. In addition to these programs, we have three products in pre-clinical development.

We are independently developing our product candidates and also utilizing strategic partnerships, including collaborations with Novartis Pharma AG (Novartis) and Schering AG (Schering), as well as collaborations with several government-sponsored clinical cooperative groups. These collaborations help fund product development and enable us to retain significant economic interest in our products.

The results of a study evaluating the potential effect of iloperidone, an antipsychotic medication in development, on the EKG profile of patients receiving the drug were announced in July 2002. The study indicated that results for iloperidone were roughly comparable to that for ziprasidone, one of the approved agents in the study. The potential of these data to support any possible regulatory submission for iloperidone is not currently known. In addition, this may potentially limit the opportunity of iloperidone as first line therapy for schizophrenia. Novartis and Titan are currently preparing to evaluate next steps for the iloperidone program.

The following table provides a summary status of our products in development:

CNS Products in Development			
Product	Potential Indication(s)	Phase of Development	Marketing Rights
Iloperidone	Schizophrenia, psychosis	Phase III	Novartis Pharma AG
Spheramine	Parkinson's Disease	Phase II (to be initiated Q4 2002)	Schering AG
Probuphine	Opiate addiction	Phase I (to be initiated Q1 2003)	Titan
Promafen	Alcoholism	Pre-clinical	Titan
Apromax	Parkinson's Disease	Pre-clinical	Titan

7

Product	Potential Indication(s)	Phase of Development	Marketing Rights
CeaVac	Colorectal, gastrointestinal and pancreatic cancer	Phase III (colorectal cancer)	Titan
TriAb	Breast and ovarian cancer	Phase II (breast cancer)	Titan
CeaVac & TriAb	Metastatic breast, non-small cell lung, and colorectal cancer	Phase II (colorectal cancer, non-small cell lung cancer)	Titan
TriGem & TriAb	Small cell lung cancer	Phase II (to be initiated Q4 2002)	Titan
Pivanex	Non-small cell lung cancer	Phase II	Titan
Gallium Maltolate	Myeloma, prostate and bladder cancer, lymphoma	Phase I/II	Titan
RB94	Head, neck, and pancreatic cancer	Pre-clinical	Titan

Our products are at various stages of development and may not be successfully developed or commercialized. We do not currently have any products being commercially sold. Our proposed products will require significant further capital expenditures, development, testing, and regulatory clearances prior to commercialization. We may experience unanticipated problems relating to product development and cannot predict whether we will successfully develop and commercialize any products. An estimation of product completion dates and completion costs can vary significantly for each product and are difficult to predict. Various statutes and regulations also influence our product development progress and the success of obtaining approval is highly uncertain. For a full discussion of risks and uncertainties in our product development, see "Risk Factors — Our products are at various stages of development and may not be successfully developed or commercialized" in our 2001 annual report on Form 10-K.

Results of Operations

Revenues for the third quarter of 2002 were \$158,000, compared to \$0.5 million for the same quarter in 2001. For the first nine months of 2002, revenues were \$2.7 million, compared to \$4.0 million for the same nine-month period in 2001. The higher revenue in 2001 was a result of higher one-time license fee payments to Titan from corporate partners, higher contract revenue and SBIR grant payments for a program which was completed in Q1 2002.

Research and development expenses for the third quarter of 2002 were \$7.2 million, compared to \$5.8 million for the same quarter in 2001. For the first nine months of 2002, research and development expenses were \$21.6 million, compared to \$16.1 million for the same nine-month period in 2001. The increase resulted primarily from our expanded clinical and pre-clinical operations, including planned increases in expenditures associated with our ongoing randomized, placebo-controlled Phase III clinical study of CeaVac in Dukes D colorectal cancer, our study of gallium maltolate in several different cancers, as well as other clinical studies of CeaVac and TriAb and progress in our pre-clinical development of drug candidates for the treatment of opiate and alcohol addiction.

General and administrative expenses for the third quarter of 2002 were \$1.3 million compared to \$1.3 million for the same quarter in 2001. For the first nine months of 2002, general and administrative expenses were \$3.9 million, compared to \$4.1 million for the same nine-month period in 2001. The slight decrease for the nine-month period resulted primarily from the absence of certain administrative costs.

Other income, net, for the third quarter of 2002 was \$1.1 million compared to \$1.8 million for the same quarter in 2001. For the first nine months of 2002, other income, net of a \$300,000 write-down of certain long-term investments, was \$3.6 million compared to \$5.1 million for the same nine-month period in 2001. The decrease, primarily in interest income, was a result of lower interest rates and decreased cash and marketable securities.

As a result of the foregoing, we had and expected net loss for the third quarter of 2002 of \$7.3 million, or \$0.26 per share, compared to \$4.8 million, or \$0.17 per share, for the same quarter in 2001. For the first nine months of 2002, our net loss was \$19.3 million, or \$0.70 per share, compared to \$11.1 million, or \$0.40 per share, for the same nine-month period in 2001.

Liquidity and Capital Resources

We have funded our operations since inception through our initial public offering and private placements of our securities, as well as proceeds from warrant and option exercises, corporate licensing and collaborative agreements, and government sponsored research grants. At September 30, 2002, we had \$81.4 million of cash, cash equivalents, and marketable securities.

Uses of cash in operating activities were primarily to fund product development programs and administrative expenses. Our operating activities used \$21.2 million and \$11.0 million of cash in the first nine months in 2002 and 2001, respectively. We have entered into various agreements with research institutions, universities, and other entities for the performance of research and development activities and for the acquisition of licenses related to those activities. The aggregate commitments we have under these agreements, including minimum license payments, for the next 12 months is approximately \$0.6 million. Certain of our licenses require us to pay royalties on future product sales, if any. In addition, in order to maintain license and other rights while products are under development, we must comply with customary licensee obligations, including the payment of patent related costs and diligent efforts in product development.

We expect to continue to incur substantial additional operating losses from costs related to continuation and expansion of product and technology development, clinical trials, and administrative activities. We believe that we currently have sufficient working capital to sustain our planned operations through 2005.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Our market risk disclosures set forth in our Form 10-K for the period ended December 31, 2001, have not changed significantly.

Item 4. Controls and Procedures

Based on the evaluation by Titan under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of Titan's disclosure controls and procedures pursuant to Rule 13a-14 of the Securities and Exchange Act of 1934, as amended (the Exchange Act), as of a date within 90 days of the filing date of this quarterly report, our Chief Executive Officer and Chief Financial Officer have concluded that the disclosure controls and procedures are effective in ensuring that information required to be disclosed by Titan in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time period specified by the Securities and Exchange Commission's rules and forms.

9

Subsequent to the date of their evaluation, there were no significant changes in Titan's internal controls or in other factors that could significantly affect these controls nor were any corrective actions required with regard to significant deficiencies and material weaknesses.

PART II

Item 4. Submission of Matters to a Vote of Security Holders

On August 15, 2002, the Company held its Annual Meeting of Stockholders. Matters voted upon at the meeting and the number of affirmative votes, negative votes, withheld votes and abstentions cast with respect to each such matter were as follows:

	<u>Affirmative Votes</u>	<u>Withheld Votes</u>
1. Election of the Company's Directors:		
Louis R. Bucalo, M.D.	19,539,655	1,985,907
Ernst-Günter Afting, M.D., Ph.D.	20,516,587	1,008,975
Victor J. Bauer, Ph.D.	19,532,605	1,992,957
Eurelio M. Cavalier	20,517,137	1,008,425
Michael K. Hsu	20,520,287	1,005,275
Hubert Huckel, M.D.	20,513,641	1,011,921
M. David MacFarlane, Ph.D.	20,517,287	1,008,275
Ley S. Smith	20,501,526	1,024,036
Konrad M. Weis, Ph.D.	20,498,555	1,027,007

	<u>Affirmative Votes</u>	<u>Against Votes</u>	<u>Abstentions</u>
2. Approval and ratification of the Company's 2002 Stock Option Plan	8,713,388	2,285,888	63,611

There were 10,462,675 broker non-votes on this matter.

3. Approval of the appointment of Ernst & Young LLP as independent auditors	21,199,882	295,233	30,447
---	------------	---------	--------

As a result of the foregoing, each of the nominees was elected director of the Company until the next annual meeting of stockholders or until their successor is elected and qualified, the Company's 2002 Stock Option Plan was approved and ratified, and the appointment of Ernst & Young LLP as the Company's independent auditors was approved.

Item 6. Exhibits and Reports on Form 8-K

- (a) Exhibits
 - 99.0 Section 906 Certifications
- (b) Reports on Form 8-K

We filed a current report on Form 8-K with the Securities Exchange Commission on July 22, 2002 to announce Novartis Pharma AG has completed a study evaluating the potential effect of iloperidone, an antipsychotic medication in development, on the EKG profile of patients receiving the drug.

Louis R. Bucalo, M.D.

**CERTIFICATION BY CHIEF FINANCIAL OFFICER
PURSUANT TO 18 U.S.C. SECTION 1350,
AS ADOPTED PURSUANT TO
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002**

In connection with the Quarterly Report of Titan Pharmaceuticals, Inc. (the "Company") on Form 10-Q for the period ended September 30, 2002 as filed with the Securities and Exchange Commission on the date hereof (the "Report"), I, Robert E. Farrell, J.D., Executive Vice President and Chief Financial Officer of the Company, certify, pursuant to 18 U.S.C. section 1350, as adopted pursuant to section 906 of the Sarbanes-Oxley Act of 2002, that, to the best of my knowledge:

- (1) The Report fully complies with the requirements of section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
- (2) The information contained in the Report fairly presents, in all material respects, the financial condition and result of operations of the Company for the period certified.

Signed at the City of South San Francisco, in the State of California, this 14th day of November, 2002.

/s/ Robert E. Farrell
Robert E. Farrell, J.D.
